Denizens.

The Society column of the Sunday Sentinel is a special feature, and an effort is made with each edition to furnish such a column as will be of interest to all the readers of the Sentinel. We hope the triends of the Sentinel will still furnish us with matter for this department, an assure them that all such items are used if practicable. In preparing society items, please use but one side of the paper. All items for this column must be signed by the author, not for publication, but for our own protection.

CHICAGO, April 11.—Great strength was again developed in the wheat market to-day, the closing prices being at about the highest point scored during the week. There was a growing belief that prices being at about the highest point scored during the week. There was a growing balief that war would result as a consequence of the strained relations existing between Russia and England and the renewed weakness in English consols was accepted as a precursor of open hostilities. The Government's sgricultural reports, estimating a probable shortage of \$60.000.000 of bushels in the yield, considering the shortage in acreage and the damage to the growing crop, in itself imparted a stronger tone to the market, while recent reports from winter wheat districts indicated an even more critical condition of affairs than has been shown in official bulletins. The opening sales were made at an advance of 1½ 1½ 0 oner the closing figures of yesterday. The advance was met by liberal offerings, which checked any further advance at the opening. Later there was an advance of 1½ 6 finally eased off ½ and closed 2½ higher than yesterday. Foreign advices were strong. The coru market was strong with higher prices, based on small receipts and an urgent demand. Prices were alvanced 1½ 1½ 20 over yesterday, and closed within ½ 0 of outside figures.
